Author: J. Nouri

Author keywords: Editorial

Research areas: Environmental science and management

Current publisher: GJESM Publisher

Web of Science Categories:

- 1- Environmental Sciences
- 2- Environmental studies
- 3- Engineering, Environmental
- 4- Social sciences, interdisciplinary

Scopus Categories:

- 1- Social Sciences - General Social Sciences
- 2- Environmental Science - General Environmental Science
- 3- Environmental Science - Environmental Engineering
- 4- Environmental Science - Pollution
- 5- Waste management and disposal
- 6- General Agricultural and Biological Sciences

Aims and Scope

Global Journal of Environmental Science and Management is a quarterly open access journal. This title welcomes major, overview, new and influential contributions on topics related to environmental science, engineering and management. The aim of the journal is to promote and disseminate knowledge in all high quality and new information in the broad field of environmental sciences and knowledge. GJESM has been publishing since 2015, as a leading international, open access, peer reviewed, scholarly publication aiming to promote scientific and technological publishing high quality and novel information within the broad field of 'Environmental science, engineering and management'. The GJESM Journal operates a double-blind peer review policy. A broad outline of the GJESM scope covers the following topics and areas:

ENVIRONMENTAL MANAGEMENT

Environmental health and ecotoxicology
Environmental impact assessment
Environmental monitoring and statement
Environmental social science
Hazardous and toxic substances management
Human population and environment
Health, safety and environment (HSE)
Environmental risk assessment and management
Plant and soil environment
Soil pollution and remediation
Sustainable agriculture management
Urban and built environmental management

ENVIRONMENTAL SCIENCE

Environmental biology and biotechnology
Environmental chemistry
Environmental microbiology
Environmental pollution (Air, soil and water)
Marine and coastal environmental pollution and management
Wildlife ecology

ENVIRONMENTAL ENGINEERING

Environmental analysis and methodology
Environmental bioremediation and measurement
Environmental modeling
Environmental nanotechnology
Environmental radiation and radioactivity
Hydrology and water resources
Industrial ecology
Noise pollution control
Solid waste management
Wastewater collection and treatment processes
Water pollution control and management

Editor in Chief

Professor J. Nouri, founder, publisher and editor in chief, Global Journal of Environmental Science and Management. Emeritus professor Tehran University of Medical Sciences, Tehran, Iran. Phone: +9821-26105110; Cell-phone: 0912-115-8827; Email: nourijafar@gmail.com

Managing Editor

Professor D. Sivakumar, managing editor, Global Journal of Environmental Science and Management. Professor and head of Department of Agricultural Engineering at the Kalasalingam Academy of Research and Education, Krishnankoil, India. Phone: +91 979 097 3774; Email: sivakumar.gjesm@gmail.com

Editorial Board

Global Journal of Environmental Science and Management comprises of the most individual highly cited researchers and famous professors around the World as below:

Professor V.K. Gupta is a highly cited researcher of environmental chemistry with Scopus h-index = 173 at the University of Johannesburg, **South Africa**.

Professor A.F. Ismail is a highly cited researcher of reverse osmosis, novel mixed matrix membranes for water desalination and waste water treatment with Scopus h-index = 87 at the Universiti Teknologi Malaysia, **Malaysia**.

Professor M. Sillanpää is a highly cited researcher of green and environmental chemistry with Scopus h-index = 84 Lappeenranta University of Technology, **Finland**.

Professor A.T. Peterson is a highly cited researcher of biodiversity and wildlife with Scopus h-index = 83 at the University of Kansas, **USA**.

Professor A. Cerda most contributed topics is in environmental soil erosion and degradation with Scopus = 72 at the University of Valencia, **Spain**.

Professor S.I. Allakhverdiev most contributed topics is in Photosynthesis and renewable energy with Scopus = 61 at the Russian Academy of Sciences, Moscow, **Russia**.

Professor J.-D. Gu most contributed topics is in environmental biology and biotechnology with Scopus h-index = 61 at the University of Hong Kong, **P.R. China**.

Professor D. Wen most contributed topics is in energy and chemical engineering with Scopus h-index = 50 at the University of Leeds, **UK**.

Professor T. Yigitcanlar most contributed topics is in Urban and Regional Planning with Scopus h-index = 47 at the Queensland University of Technology, **Australia**.

Professor A.Z. Aris, most contributed topics is in hydrochemistry and seawater intrusion with Scopus h-index = 32 at the Universiti Putra Malaysia, **Malaysia**.

Professor K.E. Noll most contributed topics is in air quality and pollution with Scopus = 26 at the Illinois Institute of Technology, **USA**.

Professor J. Nouri as the founding editor in Chief and the most contributed topics in environmental science and management with Scopus = 24 at the Tehran University of Medical Sciences, **Iran**.

Professor D. Sivakumar as the managing editor and the most contributed topics in environmental engineering with Scopus = 17 at the Kalasalingam Academy of Research and Education, Krishnankoil, **India**.

Professor M.H. Sayadi most contributed topics is in Environmental Bioremediation and Measurement with Scopus = 14 at the University of Birjand, **Iran**.

International Advisory Board Members

Dr. Stone, Science magazine editor, USA

Dr. H.K. Pant, City University of New York, USA

Professor F.N. Sadooni, Qatar University, Qatar

Dr. M. Fois, University of Cagliari, Italy

Dr. M.B. Baig, King Saud University, Saudi Arabia

Professor C.S. Wu, University of Wisconsin, USA

Dr. V. Vasileva, Institute of Forage Crops, Pleven, Bulgaria

Dr. N. Nouri, California, USA.

We're celebrating a growth for “Global Journal of Environmental Science and Management” with free access to all previous issues

This year marks a year of growth for the Global Journal of Environmental Science and Management. We are going to receive an impressive Scopus CiteScore of 5.0, our articles have now been downloaded more than 1 million times, and we have been ranked **Q2** in all the relevant flagship categories of Scopus database. We would like to seize the moment to thank the GJESM Journal community for publishing, reviewing, and reading the research we publish.
